

ATTN: FCC

We are currently hoping to receive access to 833-Agility as this is imperative for us to succeed as our business. We are an Illinois based LLC who is looking to grow and expand both our team size and also our client base. One of the motivators for me to start this company was so that I could build something that is bigger than me and find ways to not just provide for my family and my new born baby who was born 3 months ago, but also so that we can find ways to give back to the community.

Having the 833 Vanity number will allow us to be more marketable, make it easier for our clients to remember us, easier for us during marketing materials and at career fairs and we are currently looking to start partnering with local schools and colleges with whom we can work to recruit new college graduates to our organization. I hope you consider a more structured way to give out these numbers so people such as my staff, my family and myself can have a real opportunity to make positive change in this world.

Caption: My wife, my newborn son and myself.

Thank you,

Mayur Patel
